

We understand that selecting the right memorial for a loved one or yourself can be a difficult decision.

“As they say let the buyer beware” some monument suppliers provide lower cost memorials, with lower quality granite, letter carving not as deep as it should be and graphic designs that look more like cartoon’s. They may quote a lower cost in the beginning but as you are ready to order a memorial they add on cost, family name on back, phrase of relationship, colored highlights.

Mound Cemetery Association has chosen manufacturers with the assurance of quality, craftsmanship, the finest design, & best possible value. Each personalized memorial is carefully hand crafted to reflect the uniqueness of the individual or family it memorializes and we guarantee that your monument will stand the test of time commemorating your loved one for eternity. Mound Cemetery includes all lettering, color proof for your approval, granite selected from the best queries. Our Suppliers provide a life time guarantee against defects in workmanship.
